

# Maintenance Dredging Phase II

## NORWALK, CONNECTICUT

### PROJECT HIGHLIGHTS

- Cashman removed approximately 200,000 cubic yards of dredged material, at a rate of 2,000 cubic yard per day, from the Norwalk River and disposed of it at the Long Island Sound Disposal Site
- Some of the clean material was used for capping other offshore disposal site used throughout the project
- Channel and anchorage areas were dredged to depths ranging from -6 to -12 feet
- Work was completed on schedule in accordance with contract, state, local and other applicable regulations
