

Main Data:

Gross Tonnage	934
Length	240 ft.
Breadth	72 ft.
Depth	16.5 ft.
Drill Towers	3
Max. Operating Depth	100 ft.
Positioning Equipment	Dual RTK System

Construction/Classification:

Year Built	2020
Certification	ABS All Oceans ABS International Loadline

Applications:

- Channel Deepening
- Underwater Drilling and Blasting

Additional Features:

- Suitable for any project that requires drilling and blasting
- Equipped with a six point mooring system, hydraulic controlled spuds, and a dual RTK positioning to ensure accurate hole placement
- Capable of working in inlets and unprotected waters.
